

PRESS RELEASE

Elliot Lake Development Corporation is proud to announce the opening of 15 Lots situated on Spine Road with a view of pristine Elliot Lake. Conveniently located less than 1 Km from Elliot Lake's City Centre, shopping, hospital, library and beaches, this venue offers a wooded subdivision in the middle of the City.

This new development is proudly named **Spine Road Subdivision**.

You can build at your leisure without time or size restriction. Close to Elliot Lake, these lots also feature great accessibility to hiking trails, snow shoeing, atving, ice fishing, sledding and more. Nature at your doorstep!

Lots range in size from .5 acre to almost 1 acre and are approx. 200 feet deep.

Minimum reserve bids have been set on 3 premium lots. Bidding will close 4:00 pm February 20, 2015. The highest bid will be declared the winner. The remaining 12 lots are also ready for sale. Please see our website at spineroad.ca or contact us for details.

Elliot Lake Development Corporation has been working closely with the City of Elliot Lake for over 9 years to be able to offer these large residential lots within the City limits. These are estate lots and will be fully serviced.

These lots have been processed through the Ontario Municipal Board and have met all requirements.

Sewer and water services are scheduled to be installed in May 2015, weather permitting. Until then you are free to prepare for building. Once services are provided building can commence. We expect that to be August 1, 2015.

Have your new home built and be ready to move in the fall of 2015!
